Hog Cholera.

There is being considerable loss sustained by farmers resulting from the prevalence of hog cholera in different parts of the state. There has been a good deal of it in Chariton county of late, and as usual the swine owners are helpless to stop its ravages.

Every once in a while some new humbug remedy is thrown upon the market and recommended as never failing to produce a cure, but so far as we have ever learned all the so called, sure remedies are entirely worthless. We have no doubt that there are preventives of hog cholera, which, if used in time, will tend in a large measure to ward off the disease, but to say there is a never failing remedy is presumptuous, when scientific men at all the experiment stations in the United States have been wrestling with the disease for years, and all unite in saying their efforts to find a remedy have been futile. All they have done or pretended to do is to advise in reference to preventives and modes circumscribing the disease.

The Brunswick-Bosworth ball game played at Brunswick on Tuesday afternoon of last week, proved to be a walkover for Brunswick, the score standing 16 to 9 in their favor. Louis Hansman, of Keytesville, pitched for Brunswick and put up a good game. Louis also pounded the Bosworth pitcher for a home run, and thus added another big blossom to his already luxuriant wreath of laurels as an amateur base ballist. A return game between these two "crackerjack" teams was played at Bosworth yesterday afternoon, but we were unable to learn the result of the score before going to press.

We learn from the Salisbury Democrat of an unfortunate difficulty between one Wm. Vaughn and Robt. Grimsley which occurred at the farm of Ollie Scroggin, south of Salisbury, last week, in which the lie was passed, speedily followed by blows. Grimsley, who has a family in stringent circumstance, had the two bones of his left forearm broken and badly shattered by the stroke of a pitchfork handle in the hands of his antagonist. So far, no arrests have been made and we understand that Vaughn has volunteered to pay Grimsley's medical bill and provide for his family during his inability to work.

"Wm. Byrd vs. Thos. J. Hancock" was the title of a case tried by jury in Justice Singleton's court last Monday. The receipts from the sale of postage stamps at the Brunswick post-office during the month of August, 1895, was \$178.20, and the Brunswicker thinks August was not an average as it is one of the dullest months in the year, but the sale of stamps means that nearly 9,000 letters were mailed at Brunswick post-office during that month.

Mineer, of Salisbury, will be sorry to hear that she fell down one day last week and seriously injured her crippled hip, from which she has suffered more or less for several years.
